VEDANT WAGH

Software Development Engineer | Nagpur, Maharashtra, India
waghvedant29@gmail.com | +91-8766455628 | linkedin.com/in/vedant-wagh | github.com/VedantWagh123

Professional Summary

Full-Stack Software Development Engineer building scalable web applications with React.js, Next.js, Node.js and Python. Experienced in microservices architecture, RESTful API design, Redis caching and Qdrant vector database integration. Hands-on with CI/CD automation using GitHub Actions and containerized deployments with Docker on AWS.

Skills

Languages: JavaScript, TypeScript, Python, SQL, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, React Native, Expo, Node.js, Express.js, FastAPI, Socket.IO, AngularJS, Bootstrap

Databases: MongoDB, MongoDB Atlas, MySQL, PostgreSQL, Redis, Qdrant (Vector Database)

Cloud & DevOps: AWS (EC2, S3, IAM), Docker, Kubernetes, CI/CD Pipelines, GitHub Actions, Vercel

Tools & Testing: Git, GitHub, Postman, Jest, WordPress

Core Concepts: RESTful APIs, Microservices Architecture, Data Structures & Algorithms, OOP, DBMS, Operating Systems, Agile

Soft Skills: Cross-Functional Collaboration, Problem Solving, Time Management

Experience

Software Development Engineer Intern, *Hashebit Innovations*, Gurugram, Haryana — Jan 2026 – Mar 2026

- Engineered backend microservices and RESTful API endpoints for Project Bench using Node.js and Express.js, increasing overall system throughput by 25%.
- Containerized multi-tier applications with Docker and automated CI/CD workflows via GitHub Actions, accelerating deployment cycles by 40%.
- Designed MongoDB schemas and optimized indexing strategies, accelerating query execution speed by 35%.
- Authored Jest unit and integration test suites in an Agile cross-functional team, expanding test coverage to 85% and reducing post-deployment defects.

Projects

InsiderJobs – AI-Powered Employment & Skill Development Platform | Full-Stack Engineer — Live Demo

Tech: Next.js, Node.js, Express.js, MongoDB, Qdrant | job-portal-insiders.vercel.app

- Designed and implemented a full-stack recruitment portal serving job seekers, enterprise recruiters and skill development providers.
- Integrated Qdrant vector database with Next.js and Node.js microservices for automated resume parsing and AI skill matching, improving screening efficiency.
- Streamlined server payloads and optimized API query performance across candidate management modules, reducing dashboard load times by 35%.

FOREVER – Enterprise Multi-Vendor E-Commerce Platform | Full-Stack Engineer — Live Demo

Tech: React.js, Node.js, Express.js, MongoDB Atlas, Redis, Socket.IO, Razorpay, Cloudinary | forever2-one.vercel.app

- Architected a multi-tenant e-commerce system with separate web panels for customers, marketplace vendors, platform admins and logistics agents.
- Configured Socket.IO for real-time shipment updates and instant alerts, decreasing status-inquiry customer service load by 35%.
- Deployed Redis caching for product catalogs and dynamic inventory queries, raising database read throughput by 45%.
- Integrated Razorpay payment API securely and automated cloud image processing via Cloudinary CDN.

Education

Bachelor of Computer Applications (BCA), GH Raisoni College of Engineering, Nagpur, Maharashtra — 2024 – 2027

CGPA: 9.5 | **Coursework:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Software Engineering, Computer Networks

Higher Secondary Certificate (12th HSC), Mother Teresa College of Science and Technology, Nagpur, Maharashtra — 2022 – 2024

Score: 72% | **Coursework:** Physics, Chemistry, Mathematics, Computer Science
